Got your every move

People don't just sit in meetings. They are up and down, leaning in, stretching out, swinging around. The lightweight, agile Shift has your moves covered, and its not just in meetings, but lounge areas and in-between spaces and for quick chats with colleagues too. Don't let its simplicity fool you, this chair has got your back (and the rest of you)!

Happiness by design

The happier you are the more beautiful you become

It's time to lighten up a bit. No, check that, to lighten up a lot. Banish ugly and uncomfortable office chairs to the scrapheap of history. To replace them with beauty, comfort, brightness and joy. So we invented ChairClub: German design meets South African engineering and production. Boom! Beautiful chairs and big smiles.

German quality and style

First we asked award-winning German designer Stefan Brodbeck to create office chairs that would throw out the office-chair rulebook. Youthful, happy and no-compromises comfortable. He got it.

Proudly made in South Africa

Then we asked our team in South Africa - product development, manufacturing, marketing, logistics, quality control and many others - to build our chairs to the highest global standards. They do.
